GENERAL DIRECTIONS

The following directions are designed to assist institutions as they complete this program report. To complete the report, institutions must provide data from 6-8 key assessments to answer the following questions:

- Have candidates mastered the necessary knowledge for the subjects they will teach or the jobs they will perform?
- Do candidates meet state licensure requirements?
- Do candidates understand teaching and learning?
- Can candidates apply their knowledge in classrooms and schools?
- Are candidates effective in promoting student learning and creating environments to support learning?

To that end, the program report form includes the following sections:

I. Contextual Information – provides the opportunity for institutions to present general information to help reviewers understand the program

II. Assessments and Related Data - provides the opportunity for institutions to submit 6-8 assessments, scoring guides or criteria, and assessment data as evidence that standards are being met

III. Use of Assessment Results to Improve Candidate and Program Performance – provides the opportunity for institutions to indicate how faculty is using the data from assessments to improve candidate performance and the program, as it relates to content knowledge; pedagogical and professional knowledge, skills, and dispositions; and effects on student learning.

SECTION I—CONTEXT

Attach the following contextual information:

1. A program of study that outlines the courses and experiences required for candidates to complete the program. The program of study must include course titles and catalog descriptions. (This information may be provided as an attachment from the college catalog or as a student advisement sheet.) *In subsequent years, only curricular changes would be noted.*
2. Chart with the number of candidates and completers. (response limited to 6 pages, not including attachments)
